

## Weatherproofing Tape Kit

If additional weatherproofing is required, it can be obtained with appropriate adhesive tapes wrapped around the cable/connector interface. EUPEN supplies a weatherproofing tape kit for additional protection of connector, cable and jumper junctions.

### FEATURES

- *Universal weatherproofing*
- *Special weather resistant PVC-Tape*
- *Suitable for difficult weather conditions*

### TECHNICAL DATA

#### Butyl mastic tape

•Material	self-fusing butyl (free of lead)
•Color	black
•Length [m]	2
•Width [mm]	65
•Thickness [mm]	2.5

#### Adhesive all-weather PVC-tape

•Backing	PVC (free of lead)
•Color	black
•Length [m]	20
•Width [mm]	25
•Thickness [mm]	0.2
•Tensile strength [N/cm]	≥ 20
•Elongation [%]	≥ 200
•Temperature range [°C]	-40 to +105
•Resistance to flame propagation	self-extinguishing
•Dielectrique strength [kV/mm]	≥ 40

The following table indicates the quantity of connectors or splices which can be sealed with 1 kit:

Cable / Connector	1/4" & 3/8"	1/2" & 1/2"X	7/8"	1 1/4"	1 5/8"
•Single connector	10	9	7	5	3
•Splice	6	5	4	3	2

### PRODUCT OVERVIEW

Product reference	Contents	Part#
•Weatherproofing Tape Kit	•1 roll of self-fusing butyl tape (65 mm x 2 m) •1 roll of black PVC tape (25 mm x 20 m)	2849996
